CALA PONTE MARINA

your precious sea.

One of the most prestigious and advanced Marinas in Italy was opened in July 2014 at Polignano a Mare, among the characteristic lines of the Adriatic Sea. Built amid picturesque areas of the Apulian coast, Cala Ponte Marina will be an exclusive marina to stop and enjoy the many fascinating landscapes offered by an enchanted land.

The new Marina has 313 berths from 5m to 55m, perfectly arranged according to modern environmental and planning studies, following the highest standards of quality and comfort.

To complete the Marina in July 2015 was opened an exclusive hotel with a wellness center, 2 open air swimming pools and 2 tennis courts. The whole development project will be completed in 2019 with a Gallery Mali with shops, restaurants, shipchandler, nautical agencies and all the services the boaters deserve. So, Cala Ponte Marina aims to evolve as a prestigious and skilled "Marina resort" tailor-made for boaters.

Excellence, comfort and safety are guaranteed by a synergy of skills and expertise.

The new marina was developed and is managed by Cala Ponte S.p.A. in collaboration with Camper & Nicholson's Marinas Ltd, a leading company in the field of the development and management of marinas.

Cala Ponte Marina is part of the exclusive Camper & Nicholson's network Marinas.

Set in an excellent geographic position, Cala Ponte Marina is easily connected to an efficient network of roads, railways and airports. It is an ideal starting point for many Italian resorts, as well as for fascinating destinations such as Greece and Croatia and Montenegro.
