# Peruvian Amazon

---

Covering almost 4 million square km, the Amazon basin is one of the world's largest and nature dense areas, with:

more than 2,500 fish species,

1,500 bird species and

50,000 species of plants, and more are being discovered every day.

# Location

---

## Altitude

104 masl / 341 fasl

## Climate

Hot and rainy all year long.

Maximum: 31°C (88°F)

Minimum: 21°C (70°F)

The dry season (July-November) and the flood season (December-June) feature particular differences in the flora & fauna.

## Access Route

By air:

Flight from Lima (1 hr 50 min)

# Amazon River

---

The Amazon is the most abundant river in the world because of many reasons:

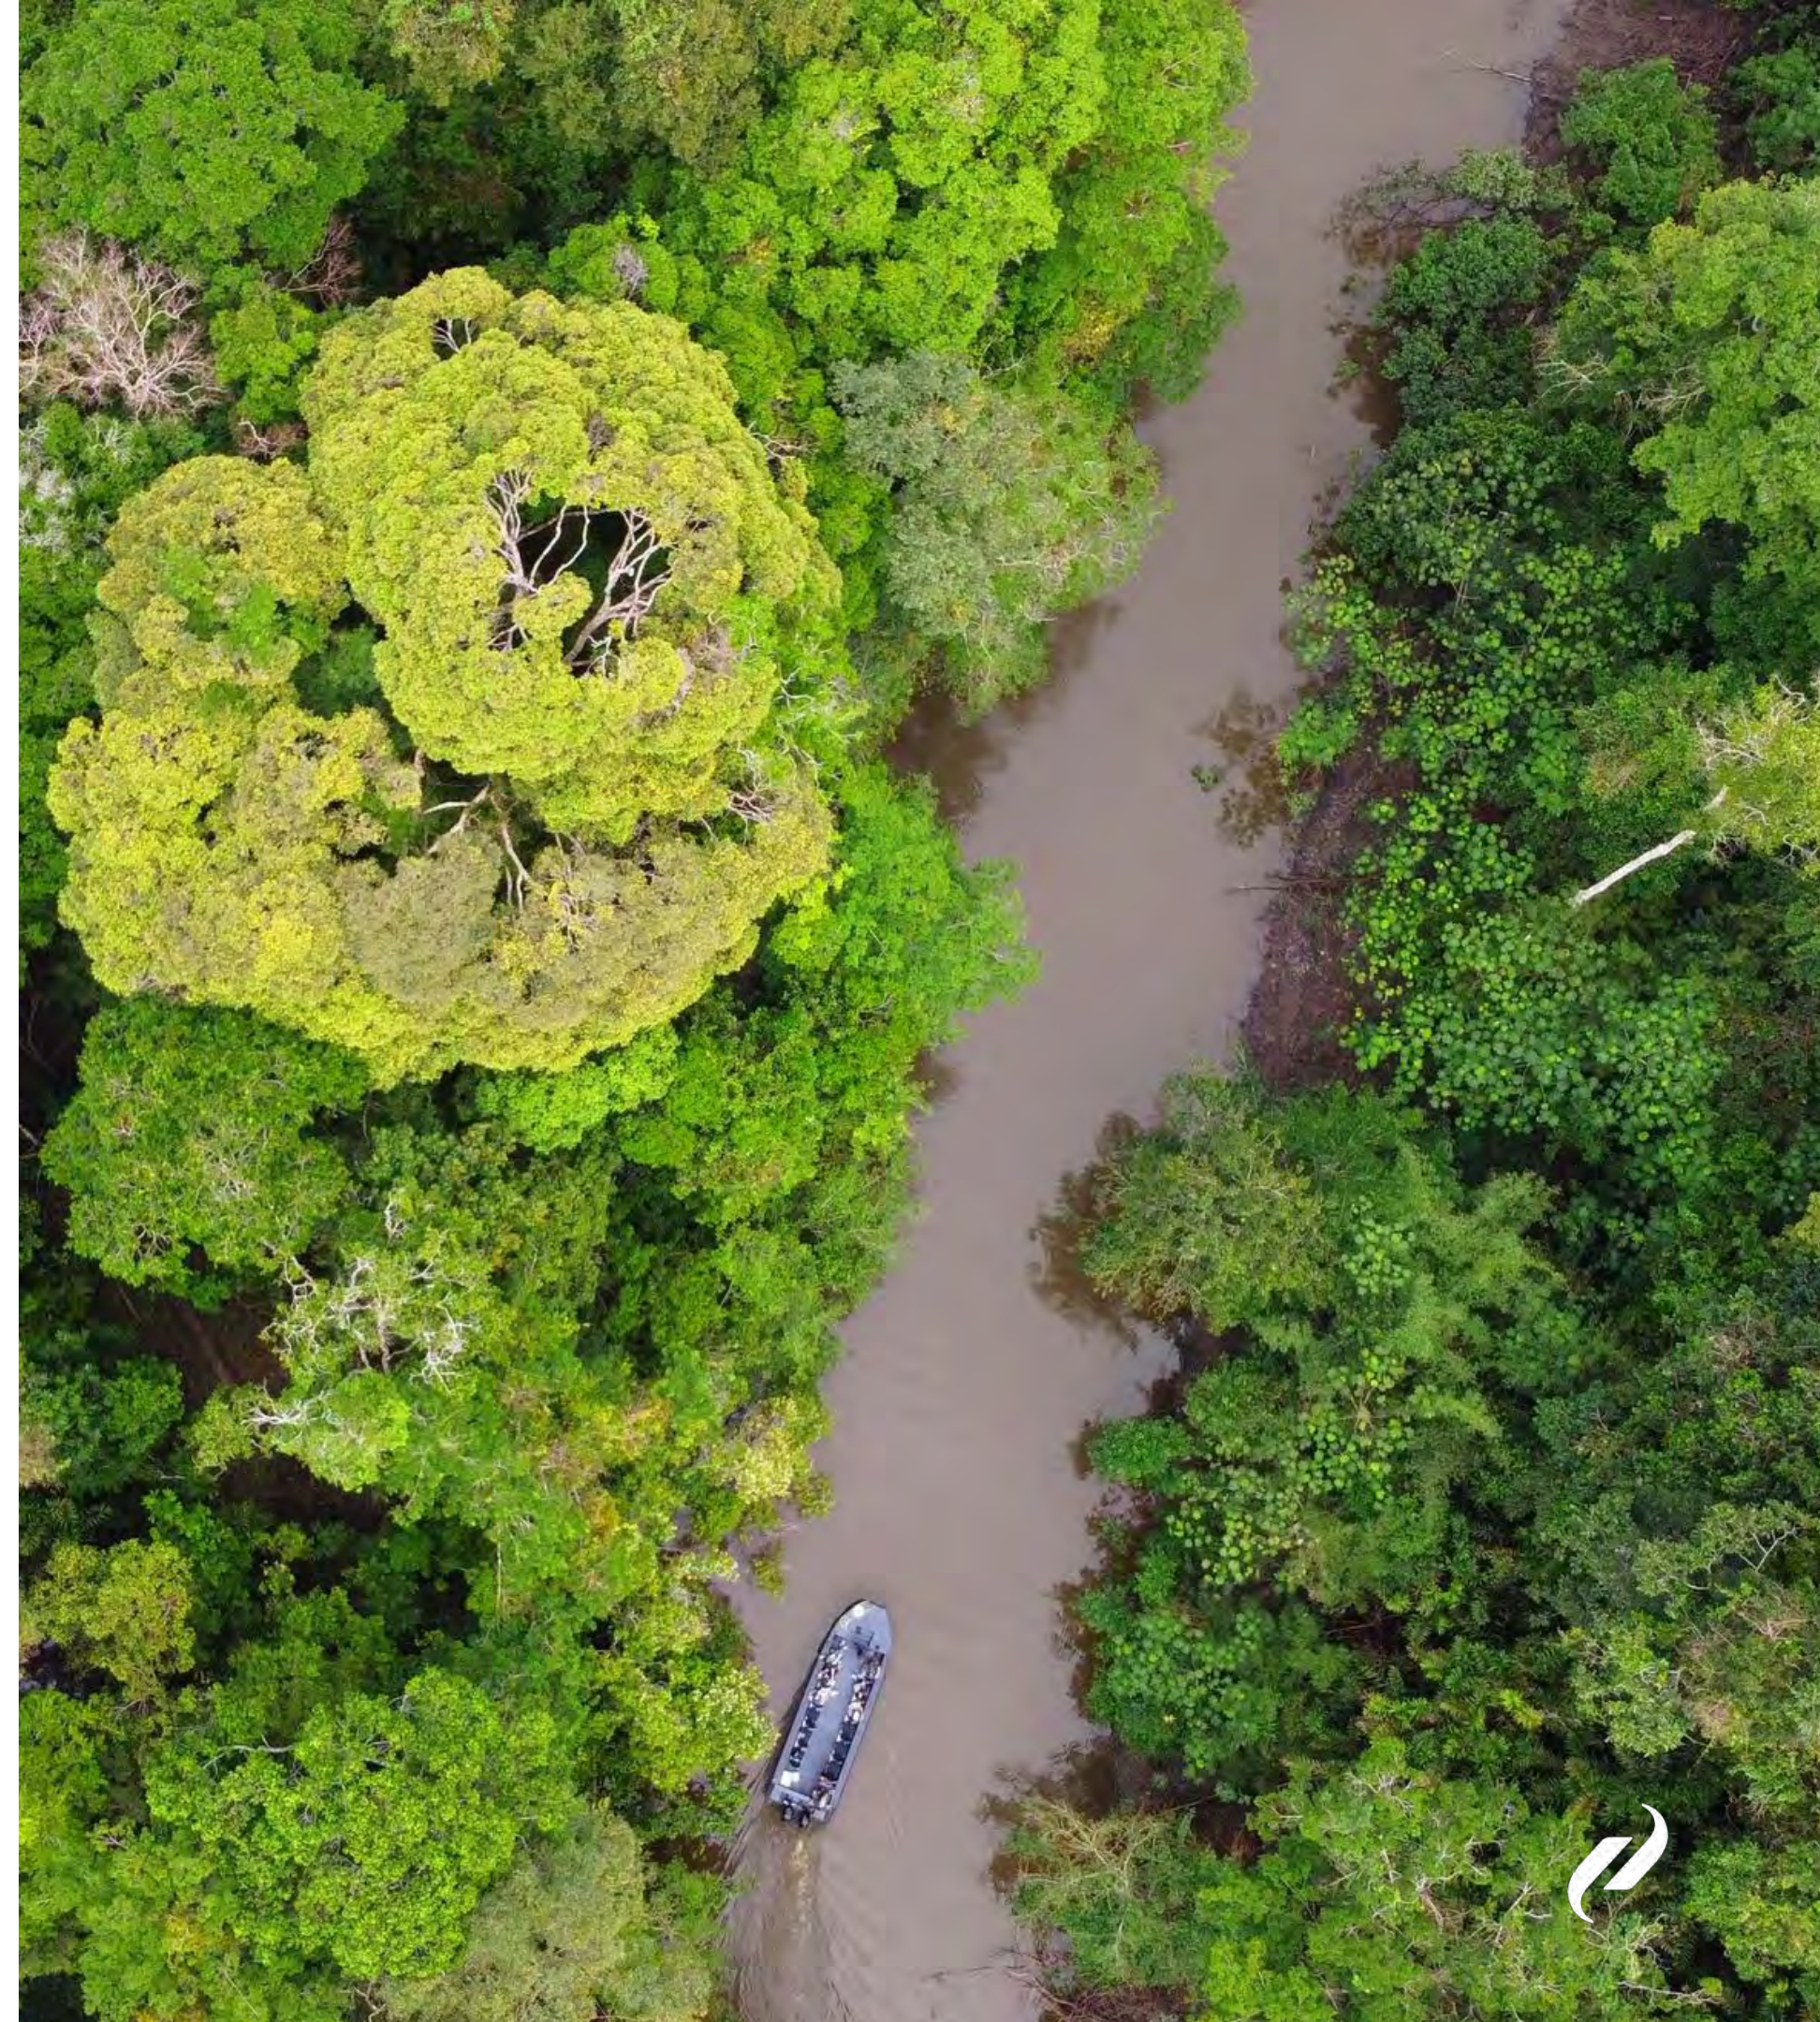

The volume of water it carries to the sea: approximately 20% of all the freshwater discharged into the oceans.

Its length and width.

It is home to many other wonders of the natural world like the catfish, the Anaconda, or the piranhas.

# Pacaya Samiria Reserve

---

The biggest of all Peru's many national reserves, the Pacaya Samiria covers 21,000 square kilometers / 8,100 square miles.

Just over 40,000 people currently call the Pacaya Samiria their home.

Tourists regularly choose to visit the plentiful attractions of the reserve both on land and in the water.
