MORE FLEXIBLE POLICIES AND FASTER COMMISSION PAYMENTS

Wtb recognizes the need to implement policy changes that will give both you and your clients increased peace of mind, regarding both reservation flexibility and expedited payment of commissions.

- Those clients who want to lock in the discount offered by a **prepaid, non-refundable rate** will now have the possibility of modifying their reservations for a future date, without penalty, until 48 hours before arrival. If they are not able to rebook for any reason, they can re-use their credit for a future stay. In addition, **commission on prepaid rates will be processed immediately upon receipt of payment**.
- Clients booking flexible cancellation rates (those paid upon departure) for arrivals through 2022, can cancel without penalty up to 48 hours before check-in. **Commission on these bookings will be processed as soon as the reservation crosses the threshold into full penalty**. At that point, advisors will receive notification via email that the commission is already in process, with a specific euro amount provided.

Note: All bookings must be made directly, either through Waterstone at info@waterstonemarketing.com or the Wtb Reservations team at info@wtbhotels.com
